Ämne: Facebook's DMA position & perhaps time for a meeting?

Dear all,

Thanks again for a good meeting a couple of months back on DMA and I hope all is well in your end.

I'm reaching out again on the DMA to share some new position papers from our side. See the attached. One of them are our proposed amendments to the DMA text and the other paper is our comments to the recent Portuguese Presidency compromise text on DMA.

Also, would you have time for a meeting to discuss where we are on DMA at this point? We would bring our expert, Jakob, into the meeting again then. I know summer holiday is getting very near - so if it works better for you, we could aim for middle or end of August if that is preferred.

Best,
Martin Ruby

Subject: Follow-up to our meeting - DMA position paper on regulatory design

Dear all,

Thank you again for your time last week - we very much appreciated the exchange with you.

As we have mentioned, we have now completed our position paper on various regulatory design aspects of the DMA. You can find it attached.

As we're early in the process, this paper is intended to constructively contribute to ongoing discussions. We would very much welcome your thoughts and feedback on it should you have any. While our thoughts will obviously evolve as the legislative process evolves, we do hope that you will find the paper useful.

Needless to say, we're happy to answer any questions you may have and walk you through the paper in another 'face-to-face' exchange should you find that helpful.

We look forward to continuing the dialogue.

All the best

Jakob
