Ämne: Letter from civil society on the Digital Services Act

For the attention of Minister Högberg,

I am reaching out to you on behalf of the [People Vs Big Tech](#) - an open network of NGOs advocating for a safer and more transparent online environment, in which human rights are effectively protected.

On behalf of [Amnesty International](#), [Defend Democracy](#), [Global Witness](#), the [Signals Network](#) and [Sum of Us](#), we would like to share our recommendations on improving the European Commission's Proposal for a Digital Services Act (DSA). The Competitiveness Council (Internal market and industry) meeting on 29th September will be a crucial opportunity for the Netherlands to stand with European citizens in pushing for a DSA that puts people's rights before Big Tech's profits.

Yours sincerely,

Nienke Palstra
Senior Campaigner – Digital Threats to Democracy
